

OFFICE OF THE STATE CONTROLLER  
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2003-26  
MANDATE REIMBURSEMENT PROCESS  
(SCHOOL DISTRICTS)  
DECEMBER 1, 2003

In accordance with Government Code (GC) section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for the Mandate Reimbursement Process (MRP) program. These claiming instructions are issued subsequent to adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

On March 27, 1986, the COSM determined that Chapter 486, Statutes of 1975, and Chapter 1459, Statutes of 1984, established costs mandated by the State according to the provisions listed in the amended P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

For fiscal year 2003-2004, these P's & G's are amended, pursuant to the requirements of Provision 8 of Item 0840-001-0001, and Provision 1 of Item 8885-001-0001, of the Budget Act of 2003 to include Appendix A.

### **Eligible Claimants**

Any school district or County Office of Education, as defined by GC section 17519, that incurs increased costs as a direct result of this mandate is eligible to claim reimbursement of these costs.

### **Filing Deadlines**

#### **A. Reimbursement Claims**

Beginning with the 2003-04 fiscal year, estimated claims may be filed with the SCO and be delivered or postmarked on or before **March 30, 2004**, or an actual claim for the 2003-04 fiscal year may be filed by January 15, 2005, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.**

#### **B. Estimated Claims**

Unless otherwise specified in the claiming instructions, school districts are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must

complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

### **Minimum Claim Cost**

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC section 17564.

GC section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county superintendent of schools may submit a combined claim on behalf of school districts within their county if the combined claim exceeds \$1,000, even if the individual school district's claim does not each exceed \$1,000. The county superintendent of schools shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school district. These combined claims may be filed only when the county superintendent of schools is the fiscal agent for the school districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district provides a written notice of its intent to file a separate claim to the county superintendent of schools, and to the SCO, at least 180 days prior to the deadline for filing the claim.

### **Reimbursement of Claims**

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

### **Audit of Costs**

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount

adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to GC section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for three years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

### **Retention of Claiming Instructions**

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

Questions or requests for hard copies of these instructions should be faxed to Ginny Brummels at (916) 323-6527, or e-mailed to **LRSDAR@sco.ca.gov**. Or, if you wish, you may call the Local Reimbursements Section at (916) 324-5729.

## **I. SUMMARY OF THE MANDATE**

Statutes 1975, chapter 486, established the Board of Control's authority to hear and make determinations on claims submitted by local governments that allege costs mandated by the state. In addition, Statutes 1975, chapter 486 contains provisions authorizing the State Controller's Office to receive, review, and pay reimbursement claims for mandated costs submitted by local governments.

Statutes 1984, chapter 1459, created the Commission on State Mandates (Commission), which replaced the Board of Control with respect to hearing mandate cost claims. This law established the "sole and exclusive procedure" by which a local agency or school district is allowed to claim reimbursement as required by article XIII B, section 6 of the California Constitution for state mandates under Government Code section 17552.

Together these laws establish the process by which local agencies receive reimbursement for state-mandated programs. As such, they prescribe the procedures that must be followed before mandated costs are recognized. They also dictate reimbursement activities by requiring local agencies and school districts to file claims according to instructions issued by the Controller.

On March 27, 1986, the Commission determined that local agencies and school districts incurred "costs mandated by the state" as a result of Statutes 1975, chapter 486, and Statutes 1984, chapter 1459. Specifically, the Commission found that these two statutes imposed a new program by requiring local governments to file claims in order to establish the existence of a mandated program as well as to obtain reimbursement for the costs of mandated programs.

## **II. ELIGIBLE CLAIMANTS**

Any local agency as defined in Government Code section 17518, or school district as defined in Government Code section 17519, which incurs increased costs as a result of this mandate is eligible to claim reimbursement of those costs.

## **III. PERIOD OF REIMBURSEMENT**

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

- (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
- (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
- (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561 (d)(1), all claims for reimbursement of initial years' costs shall be submitted within 120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

#### **IV. REIMBURSABLE ACTIVITIES**

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct, ", and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

##### **A. Scope of Mandate**

Local agencies and school districts filing successful test claims and reimbursement claims incur state-mandated costs. The purpose of this test claim is to establish that local governments cannot be made financially whole unless all state mandated costs -- both direct and indirect -- are reimbursed. Since local costs would not have been incurred for test claims and reimbursement claims but for the implementation of state-imposed mandates, all resulting costs are recoverable.

##### **B. Reimbursable Activities**

###### **1. Test Claims**

All costs incurred by local agencies and school districts in preparing and presenting successful test claims are reimbursable, including those same costs of an unsuccessful test claim if an adverse Commission ruling is later reversed as a result of a court order. These activities include, but are not limited to, the following: preparing and presenting test claims, developing parameters and guidelines, collecting cost data, and helping with the drafting of required claiming instructions. The costs of all successful test claims are reimbursable.

Costs that may be reimbursed include the following: salaries and benefits, materials and supplies, consultant and legal costs, transportation, and indirect costs.

## 2. Reimbursement Claims

All costs incurred during the period of this claim for the preparation and submission of successful reimbursement claims to the State Controller are recoverable by the local agencies and school districts. Allowable costs include, but are not limited to, the following: salaries and benefits, service and supplies, contracted services, training, and indirect costs.

Incorrect Reduction Claims are considered to be an element of the reimbursement process. Reimbursable activities for successful incorrect reduction claims include the appearance of necessary representatives before the Commission on State Mandates to present the claim, in addition to the reimbursable activities set forth above for successful reimbursement claims.

## 3. Training

### a. Classes

Include the costs of classes designed to assist the claimant in identifying and correctly preparing state-required documentation for specific reimbursable mandates. Such costs include, but are not limited to, salaries and benefits, transportation, registration fees, per diem, and related costs incurred because of this mandate. (One-time activity per employee.)

### b. Commission Workshops

Participation in workshops convened by the Commission is reimbursable. Such costs include, but are not limited to, salaries and benefits, transportation, and per diem. This does not include reimbursement for participation in rulemaking proceedings.

## V. CLAIM PREPARATION AND SUBMISSION

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

### A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

#### 1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

#### 2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after

deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

### 3. Contract Services

Report the name of the contractor and services performed to implement the reimbursable activities. Attach a copy of the contract to the claim. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the dates when services were performed and itemize all costs for those services.

### 4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

### 5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

### 6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

## B. Indirect Cost Reporting

### 1. Local Agencies

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the Claimant shall have the choice of one of the following methodologies:

- a. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
- b. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections, and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

## 2. School Districts

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs, and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the J-380 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

### 3. County Offices of Education

County offices of education must use the J-580 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

### 4. Community College Districts

Community colleges have the option of using: (1) a federally approved rate, utilizing the cost accounting principles from the Office of Management and Budget Circular A-21, "Cost Principles of Educational Institutions"; (2) the rate calculated on State Controller's Form FAM-29C; or (3) a 7% indirect cost rate.

## **VI. RECORD RETENTION**

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter<sup>1</sup> is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

## **VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENT**

Any offsetting savings the claimant experiences in the same program as a direct result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, services fees collected, federal funds, and other state funds, shall be identified and deducted from this claim.

## **VIII. STATE CONTROLLER'S CLAIMING INSTRUCTIONS**

Pursuant to Government Code section 17558, subdivision (b), the Controller shall issue claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the adopted parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The claiming instructions shall be derived from the statute or executive order creating the mandate and the parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(1), issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the Commission.

---

<sup>1</sup> This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

## **IX. REMEDIES BEFORE THE COMMISSION**

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (a), and California Code of Regulations, title 2, section 1183.2.

### APPENDIX A

#### Limitation on Reimbursement for Independent Contractor Costs During Fiscal Years 2003-2004<sup>2</sup>

- A. If a local agency or school district contracts with an independent contractor for the preparation and submission of reimbursement claims, the costs reimbursable by the state for that purpose shall not exceed the lesser of (1) 10 percent of the amount of the claims prepared and submitted by the independent contractor, or (2) the actual costs that would necessarily have been incurred for that purpose if performed by employees of the local agency or school district.

The maximum amount of reimbursement provided in subdivision (a) for an independent contractor may be exceeded only if the local agency or school district establishes, by appropriate documentation, that the preparation and submission of these claims could not have been accomplished without incurring the additional costs claimed by the local agency or school district.

- B. Costs incurred for contract services and/or legal counsel that assist in the preparation, submission and/or presentation of claims are recoverable within the limitations imposed under A. above. Provide copies of the invoices and/or claims that were paid. For the preparation and submission of claims pursuant to Government Code sections 17561 and 17564, submit an estimate of the actual costs that would have been incurred for that purpose if performed by employees of the local agency or school district; this cost estimate is to be certified by the governing body or its designee.

If reimbursement is sought for independent contractor costs that are in excess of **[Test (1)]** ten percent of the claims prepared and submitted by the independent contractor or **[Test (2)]** the actual costs that necessarily would have been incurred for that purpose if performed by employees or the local school district, appropriate documentation must be submitted to show that the preparation and submission of these claims could not have been accomplished without the incurring of the additional costs claimed by the local agency or school district. Appropriate documentation includes the record of dates and time spent by staff of the contractor for the preparation and submission of claims on behalf of the local agency or school district, the contractor's billed rates, and explanation on reasons for
